Brian Zhang
Software Engineer.

925-699-3883 **PHONE**   Berkeley, California **LOCATION**   brian.zhang@berkeley.edu **EMAIL**

PROFILE
Computer science graduate from the University of California, Berkeley. Interests include web development, programming languages, and machine learning. In my free time I enjoy spending time outdoors and playing jazz piano.

EXPERIENCE
Software Engineering Intern, Symmetricom, Inc.
May 2013–August 2013
Source control management system administration.
- Modernized source control management system from Mercurial to Git and Atlassian Bitbucket/JIRA.
- Worked on new software development workflow, e.g. automating bug reporting and tracking services.

Software Engineering Intern, Blackhawk Network
May 2012–August 2012
Front and back end financial services.
- Developed iOS app for GoWallet, a service for managing financial payments products, e.g. gift cards.
- Developed back end payment processing system for PayPower, a reloadable Visa prepaid card.

EDUCATION
University of California, Berkeley — Bachelor of Arts, Computer Science
